## <About me />

Hi, I'm Fede! 🧙 Many many years ago I graduated as a computer technician, got my first job as a programmer and started the Computer Science career. But some unexpected tragedies led me to make the mistake of quitting it all. 🧑🏻🤔  
💀 In the following years I was a sociologist and a teacher in high schools and at the University of Buenos Aires. But for some time now web development has reawakened my curiosity 🤖, and it caught me! 🎯 So much so that I decided that it was time to change again, to be able to dedicate myself every day to study and to program, and since then I have not stopped. 🧑🏻🚀

## <Summary of qualifications />

Web developer focused on frontend. My skills and experience include:

- HTML / CSS
- JavaScript / React / Next.js
- Testing (Vitest/Jest, Playwright)
- Responsive web design
- MySQL / SQLite
- TypeScript / JSDocs
- Node.js / Express
- Git / GitHub

## <Projects />

You can find a detailed explanation of each project and links to the source code, on my online portfolio: [portfolio.fedeholc.ar](https://portfolio.fedeholc.ar)

### **fotoYOP & foto-V**

- FotoYOP allows you to transform images and create collages simply and quickly. It is also a PWA that can be installed on the phone and used offline. Foto-V is your ideal complement: it converts images into videos by applying effects such as panning or zoom in/out.
- Stack: HTML, CSS, vanilla JavaScript, React/Next, TypeScript, JSDoc, PWA, Canvas API.
- Live demos: [fotoyop.fedeholc.ar](https://fotoyop.fedeholc.ar) · [foto-v.fedeholc.ar](https://foto-v.fedeholc.ar)

### **<NuncaSupeProgramar/> Blog of notes for learning web development**

- My blog to organize notes, learn, and share knowledge. Simple, fast, and accessible.

- Stack: Next, React, JavaScript, HTML, CSS, Markdown.
- Online: [nsp.fedeholc.ar](https://nsp.fedeholc.ar)

### ¡ANOTÁ! & Highlighter - ¿Another note taking app?

- That's right, yet another note-taking application =) But with some particular special features. And the best: a browser extension that allows you to highlight and save texts and links from anyweb.
- Stack: HTML, CSS, JavaScript, React, Next, SQLite, WebExtension API.
- Live demo: [anota-demo.vercel.app](https://anota-demo.vercel.app)

### Full size images for IG

- Extension for Chrome browser that allows you to view Instagram images at full resolution and in full screen, without distractions.
- Stack: JavaScript, HTML, CSS, WebExtension API.
- Available at the chrome web store: [bit.ly/igfull](https://bit.ly/igfull)

### Other projects:

- Desktop application to manage a health clinic (course project). Stack: C#, Visual Studio, MySQL.
- Mobile application to manage a sports club (course project). Stack: Kotlin, Android Studio, SQLite.
- Argentina Programa v3.0 - Editable resume (course project). Stack: Java, Springboot, Hibernate, MySQL, Angular, HTML, CSS, Bootstrap.

## <Languages/>
